About Starr Docks & Lifts

Built on Experience

With over 39 years of expertise, Starr Docks & Lifts has earned a reputation for delivering premium-quality docks and lifts that combine durability, functionality, and exceptional craftsmanship.

Driven by Innovation

Our team continually refines every design to meet and exceed the highest standards of performance and reliability—because we know that quality starts with precision and passion.

Focused on You

We believe strong customer relationships are just as important as strong products. Whether upgrading your setup or starting fresh, Starr Docks & Lifts helps transform your shoreline into a space you'll enjoy for years to come.

Discover the Starr Docks & Lifts difference —
crafted for reliability, designed for ease, and
always delivering on our promise:

“IT JUST WORKS!”

Stationary Dock

Starr Docks and Lifts is the originator of Anodized Decking

Premium Anodized Lifetime Warranty

Known as "KOOL DOCK"! Our Best Seller! With its strength and light weight, this is easily the industry leader for dock. We anodize the entire dock and two center supports. Anodized aluminum stays cooler than vinyl and wood. It will not rust, turn black, or warp. Not only do you get a clean look, but it also has a virtually maintenance-free finish that you will be able to enjoy for a lifetime!

Available in 3'x10', 4'x9'6", 4'x10', 5'x10', 6'x10'. We can also create custom and angle sections.
See dealer for more information.

Powder Coated Aluminum

Constructed with two center supports and topped with a powder coat finish, this Powder Coated Aluminum will stay cooler than vinyl and wood. With its virtually maintenance-free finish, it will last for years!

Available in 3'x10', 4'x9'6", 4'x10', 5'x10', 6'x10'.

We can also create custom and angle sections. Also available in Grey, Cedar Breeze, Sand Beige and White.

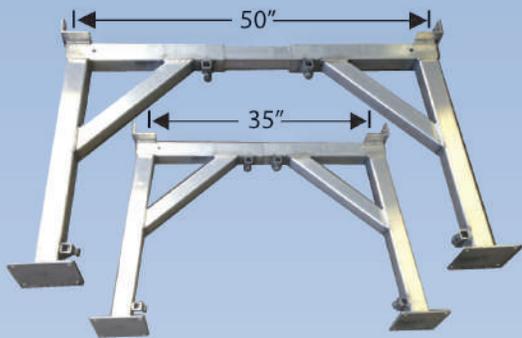

SunWalk 90 series: Available in 3'x10', 4'x10'. Also available in Stone Grey and Oak. **Great for large waves and high wind areas**

For more information please visit Starr-Products.com

Stationary Dock Supports

Starr Pro Heavy Duty Under Dock Supports - UD
 2-3/8" square aluminum tube, with 2" square insert
 Adjustable widths from 35" to 48" (will adapt to almost any dock).

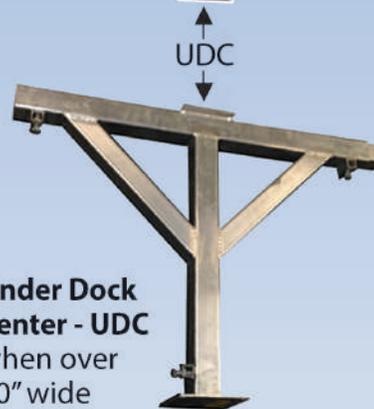

SLX Leg Insert adjustments slide inside the Under Dock Support and provides from 12" to 102" of dock heights.

UD 342 width from 35" to 50"
Our angled design increases stability!

UD 342 with one UDC
 These will adjust to any width sundeck by adding additional UDC's

Under Dock Center - UDC
 when over 50" wide

T/L Adapters

Attach to seawalls and docks eliminating the support at the intersection of two docks. Available in 3', 4', 5' and 6' lengths.

End Caps

Give a finished look to the end of your dock. Anodized or Cedar Breeze Powder Coated. Available in 3', 4', 5', 6', 8' and 12' lengths.

SLX Leg Inserts (Height adjustments)
SLX 12 12" to 22" (inches of height)
SLX 24 24" to 42" (inches of height)
SLX 36 36" to 54" (inches of height)
SLX 48 48" to 66" (inches of height)
SLX 60 60" to 78" (inches of height)
SLX 72 72" to 90" (inches of height)
SLX 84 84" to 102" (inches of height)

Premium Dock Series

Platinum Series

Starr's Platinum Dock was originally designed as a commercial grade floating dock. The soft edges and classy look takes this high end dock system to a whole new level.

A ROCK SOLID STRUCTURE

Its innovative features, such as the Platinum Track System (PTS), allows you to place and adjust slips, bumpers, benches, ladders, and custom accessories wherever you want them.

The Platinum Tracking System makes installing and reconfiguration a snap.

For more information please visit Starr-Products.com

Premium Stationary Series

Premium Stationary Series Dock features a lightweight design that delivers the strength you expect at a more budget-friendly price. It offers infinite add-on options and adjustments.

Sections are available in 4 x 8', 4 x 10', and 4 x 12' sections to fit your shoreline perfectly. Top-side leveling legs allow for quick adjustments, and after the initial installation, no tools are required for winter storage.

Winter storage is easier than ever. The sections stack neatly with no issues. Simply disassemble and store them in a compact stack, keeping your yard clean and clutter-free with no bulky dock sections taking up space.

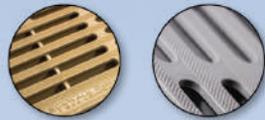

Roll-In Dock

Aluminum Roll-In/Truss Dock

- **Offers the highest strength to weight ratio in the industry and the warranty to back it**
- In most situations, the easiest dock to install. This system allows you to install earlier in the season and remove later in the season, giving you more time to enjoy your lake front
- Available rounded decking: Kool Dock (Anodized Aluminum), Grey Powder Coated Aluminum, Powder Coated Cedar Breeze (wood look), and SunWalk.
- **All options will not get hot**
- Rounded decking is easier to keep clean and has softer edges
- Wheel kits on every section provide a more stable and easier to remove dock system
- Each leg adjusts individually
- **No additional posts necessary**
- Tires are drilled to fill up with water and keep your dock in place. Sealed tires are available for mucky applications

Starr Roll In Dock is available in 4'x8', 4'x12', 4'x16', 6'x12', 8'x8', 8'x12', and 8'x16'.

We can also create custom angles and sizes.

SunWalk Beige

SunWalk Grey

Anodized Aluminum

Powder Coated Grey Aluminum

Powder Coated Cedar Breeze

Powder Coated Sand Beige

Powder Coated White

Starr's soft rounded edges make it the most comfortable aluminum dock decking in the industry.

Other decking holds dirt and water and is not friendly to you or your watercraft.

Roll-In Dock Supports

Wheel Kits

Interacts with the best superstructure in the industry.

- This simple design has stood the test of time
- Infinite adjustment
- Perfect for sandy or uneven lake bottoms
- Double braced for stability
- Each leg adjust individually
- Sand pads are available

Support Post

Support posts help keep your dock steady and strong—often used at the first section.

Double braced for stability

- This is what makes Starr Roll-In Docks the most stable in the industry
- Prevents dangerous side-to-side sway found in other dock systems

Pro Wheel Kits Starr Level Easy Legs™: Level Your Dock Without Getting Wet!

- Level your dock with a cordless drill motor
- Made with aluminum threaded rod and composite nut
- Stainless steel hardware - nothing to rust or corrode
- Excellent in mucky applications, deep water or varying water levels
- Legs adjust independently, unlike the competition
- Eliminates cables, winches and additional supports that are needed in other systems
- Clean look with no posts

WATER DEPTH ADJUSTMENTS

SHALLOW	12" to 30" of water depth
MEDIUM	18" to 46" of water depth
DEEP	33" to 61" of water depth
X-DEEP	48" to 91" of water depth
XX-DEEP	70" to 108" of water depth

Water depth adjustments to the bottom of the dock to bottom of the wheel. If using Sand Pads, reduce by 12"

Pro-Link System

Quickly link and bring your dream dock to life.

- No tools required
- Use anywhere on your dock to add...
 - sun deck
 - fingers
 - slips

Floating Dock

TRUSS FLOATING DOCK

PLATINUM FLOATING DOCK

How do you know if you need a Floating Dock?

Do you have water depths that are greater than 9 feet?

Free-standing docks can get unstable in deeper water, while a large floating system can maintain stability.

Do you have significant fluctuation in water depth?

A floating dock will adjust on its own as water levels rise and lower.

Do you have a very mucky lake bottom?

A floating dock may be the best answer for a mucky or soft lake bottom.

Floating docks do not use the lake bottom for support.

Starr Floating Dock Benefits

- Adjusts to fluctuating water conditions
- Modular design
- Easy to install
- Many accessories to customize your dock
- Add-on capability
- Salt water safe

STARR floating dock is available in the following sizes: 4'x12', 4'x16'. Sun decks available in 8'x8', 8'x12', and 8'x16'.

Dock Accessories

ROLL-IN AND FLOATING DOCK

Round Vertical Bumper

- Best way to protect your investment
- Available in 36"
- No drilling required
- Will catch something low profile that would go under the dock or something high profile that would go over the dock
- Stable enough to tie off your boat
- For all dock types

ROUNDED BUMPERS
WHITE OR TAN

Cushion Vertical Bumper

- Best way to protect your investment
- Available in 36"
- No drilling required
- 36" Cushion Vertical Bumper will catch the rub rail of the boat and will not touch the hull, eliminating the expensive gel coat and decal repairs.
- Stable enough to tie off your boat

STATIONARY DOCK
WHITE OR BLACK

Solar Dock Lights

- Most popular way to light your dock (See Dealer for details)
- Light attaches to top of vertical bumper
- 6 pre-installed LED colors on each light. Change colors anytime
- Yellow lights deter bugs
- Other mounting options available

Starr Adjustable HD Vertical Bumpers

- Attaches anywhere on your dock
- Has adjustable track on the back side of the bumper allowing you to adjust where you need the most protection
- Only for truss dock
- Comes in tan or grey
- Available in 48"

Flag Pole

- Enhance your lake front dock system by showing your patriotism
- Our flag pole attaches to the truss and will go anywhere on the system
- Available for all dock systems

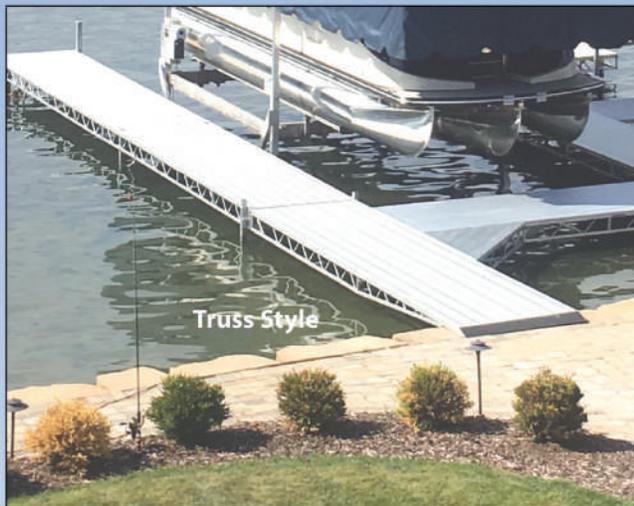

Dock Accessories

Shore End Ramps

Create a perfect transition from your shore line to your dock

Standard shore end only available in 4'x6' & 4'x12'. Standard shore end ramps fit premium series, truss, stationary, and Connect-A-Dock

Truss Shore End Ramp available in only 4'x16' 6"

Starr Dock Steps

- All aluminum construction
- Ideal way to get people safely in and out of the water
- Available in many sizes

Adjustable Dock Steps

Swim Ladder

- Can be mounted anywhere on truss-style dock
- Available in 2, 3, 4, and 5 step

Kayak, Canoe & Stand-Up Paddleboard Rack

- Mounts anywhere on Truss-Dock System
- Does not take up dock space

Dock Furniture

Benches

Woven Bench

A stylish and durable seating option featuring a hand-woven design for comfort and long-lasting outdoor performance.

Has built-in cupholder for added convenience on docks, patios, or lakeside spaces.

Fits Platinum and Truss Style Dock.

Available in Brown

Swivel Chairs

Comfort meets versatility with our Swivel Chairs, designed with smooth swivel motion for easy, all-around views from your dock. Add an optional table to create a convenient Café Set—perfect for relaxed mornings or peaceful evenings on the water. Fits Platinum and Truss Style Dock.

Available in Brown/Grey, Charcoal/Silver, and Brown Woven

Armrests are available for ROLL-IN, PLATINUM, and FLOATING BENCHES

Aluminum Bench

- Maintenance free powder coated aluminum
- Will attach anywhere on dock
- No drilling required (truss dock)
- Takes up less dock space
- Relocation easy if you change configuration
- Available in Side-Mount or Top-Mount

Sunset Bench

The Sunset Bench combines comfort and convenience with two connected chairs and a built-in center table—perfect for sharing drinks, snacks, or conversation. A great addition to any dock, it's ideal for

relaxing mornings, sunset views, and evenings by the water.

Fits Platinum and Truss Style Dock.

Available in Brown/Grey and Charcoal/Silver

Freestanding and Self-Contained Lifts

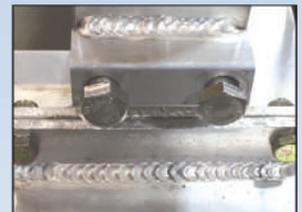

Starr Vertical Boat Lifts (BL)

4,000, 5,000, 5,800, 7,500 lbs.

- Starr boat lifts (BL) are constructed with heavy gauge aluminum providing great strength and long lasting durability
- Standard inside width of 120" wide
- Overlapping cradle design overlaps the entire width of the lift making Starr Lifts the shallowest operating vertical lift in the industry!
- Full length adjustable bunks – provide a great protected surface to raise your boat out of the water. Poly covered aluminum, maintenance free bunks are standard on Starr boat lifts
- V-shaped side frame to allow easier access in and out of your boat or pontoon
- Stainless steel leveling cables are standard to prevent rust and corrosion
- Stainless steel and galvanized hardware

- Greaseable fittings now standard on all lifts, and nylatron pulleys provide more lubrication to reduce friction, creating longer pulley and cable life.
- Positive lock leg adjustment system
- Infinite adjustability
- No holes to find or pins to lose when adjusting leg

Pontoon Lifts

FREESTANDING

Starr Pontoon Lifts (PL)

5,000 lb, 7,500 lb, 7,000 w

- With the overall length of pontoon boats increasing, most companies try to modify a smaller boat lift to fit your pontoon. The Starr Pontoon lift is designed for pontoons with an overall length of 24' or larger. The Starr PL has a 2 ½ foot longer frame creating a more stable platform, and a larger, safer structure to hold your craft, while increasing the lifts stability on any lake bottom.
- Starr pontoon lifts (PL) are constructed with high strength aluminum
- Overlapping cradle design overlaps the entire width of the lift making Starr lifts the most shallow operating vertical lift in the industry!
- V-brace design allows easier boat accessibility
- Stainless steel leveling cables are standard to prevent rust and corrosion
- Stainless steel and galvanized hardware

Model	PL5000	PL7500	PL7000 w

OPTIONAL UPGRADES:

- Heavy duty manual winch with 30" powder coated wheel
- AC or 12V DC power with solar panel
- Guide-ins are available to protect your investment from unnecessary scratches or hull damage
- Canopy Systems are available and offer protection for your watercraft or small boat from weather elements.
- Canopies offered in 12' and 14' for those longer watercrafts
- Bow stop
- Lifts come standard with bunks and guide-ins
- Add SunWalk Decking to ease the transition from your dock to your watercraft

Starr Cantilever Jet Ski Lifts

- 1,500 lb capacity 64" wide
- Heavy duty winch with pulley bar design
- 30" aluminum powder coated wheel

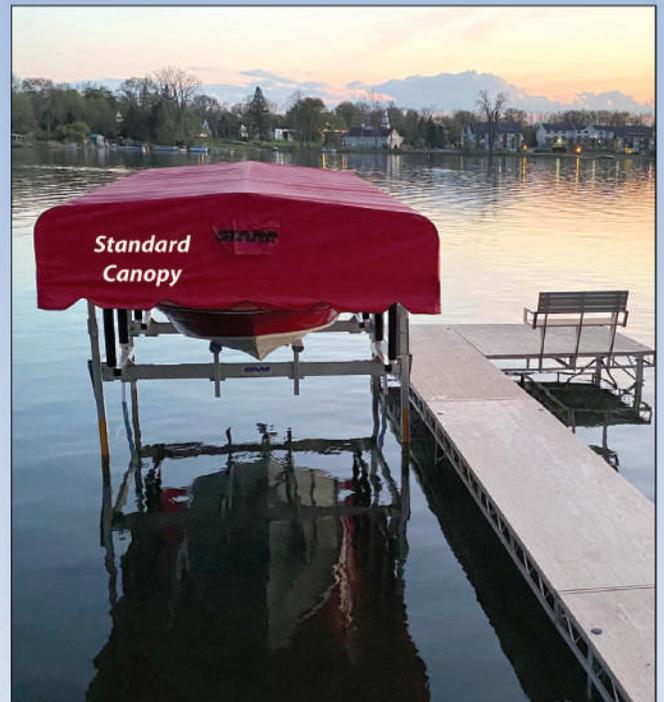

For more information please visit Starr-Products.com

Canopy System

Starr's Pro Canopy System offers 12' to 40' to assure that your investment is covered.

- Standard drop is **36"**
- Extra 12" drop side gives **48"** of coverage from peak to bottom of valance
- Extra 24" drop side, maximum coverage of **60"** from peak of canopy to bottom of valance. This canopy offers the most coverage in the industry.
- Front boarding access
- Rear boarding access
- Side boarding access
- These canopy options allow you to leave bimini in travel position, or leave arch up
- Bow stop

Canopy System

Starr's Pro Canopy System now offers even more coverage to maximize your time on the water, as well as different boarding options.

- Extra deep canopy to protect your investment
- Eliminates the need to cover your boat/pontoon
- Keeps your boat safe and free from birds and debris
- Protect your investment from the sun's damaging rays
- Enjoy more boating time instead of cleaning time
